

GAME TIME

EMBOO RIVER APPLIES INNOVATION & TECHNOLOGY TO BE ECO FRIENDLY, SUSTAINABLE AND THE FIRST CARBON NEGATIVE AND CLOSED LOOP LODGE OF ITS KIND.

LET'S BREAK THIS DOWN IN SOME NUMBERS

100% SOLAR POWER = 0 generator = 0 noise = 0 fuel

7.2 KWH CAMP CONSUMPTION + VEHICLE CHARGING
= daily consumption

24/7 POWER 120 m2 solar panels

26.4 KWP GENERATION + 70 KWH STORAGE CAPACITY
3 hours of sun = full charge

100%
SOLAR POWER

solar power

FARM TO FORK

100% flexitarian menu & vegan lunches

Studies show that moving to a flexitarian diet could reduce greenhouse gas emission by over 50%

2 acres local garden 100% organic
> 40 different vegetables, herbs, fruits

ORGANIC HONEY

17 traditional beehives

ROOTING FOR OUR FUTURE
50 trees planted / month
100s of trees in nursery awaiting planting

1 TREE ABSORBS
~ 22 kg CO2 / year

1 YEAR OF TREES PLANTED ABSORBS
~ 13 200 kg CO2 / year

0% SINGLE USE ITEMS
ZERO WASTE

Maximum waste reduction
Minimal waste remaining is upcycled

3 Bricknic dishes + 30 beeswax cloths
= 0 tin foil or cling wrap

1 bamboo straw gifted / guest

Beeswax cloth used to wrap food.
100% REUSED.

0 METAL **0 MINING**
0 PLASTIC **0 TRASH**

Saved **180 METRES** of tin foil
and **120 METRES** of parchment paper / year

WATER

100% waste water cleaned
2 lagoons with 6 species of local plants

0% water untreated
0 septic tank
0 effluent waste

100% eco cleaning products
0 toxins

100% solar heaters for warm water
200 liter capacity / heater
72 hours warmth

100% **WATER RECYCLED**

water recycled

NATURAL SWIMMING POOL

Ecosmarte system
100% natural copper ionisation & oxidation system

1 swimming pool
0 chlorine
0 salt

RECYCLED WATER CAR WASH & TOILETS

Fresh water saved per year
by using recycled water

295 650 LITRES

TRASH TO TREASURE

100% on site **RECYCLING**
100% **UPCYLING** of glass, paper and plastic

ALTERNATIVE FUEL

Creating of eco briquettes (*bio fuel made from waste paper and sawdust*)

- Reuse waste
- No deforestation for firewood or charcoal
- Healthier for cooking
- Women led business
- Income generating for young talent

BUDGET

eco-aspect savings

MONTHLY SAVINGS
Compared to traditional safari camp

USD 6 300 on water
USD 5 000 on fuel (for energy and cars)
USD 296 on parchment paper and tin foil
USD 77 on pool chemicals

= USD 11 673 / month
= USD 140 076 / year
on basic operations

+ more savings on other eco aspects
