

# EMBOO RIVER

## FOOD VISION

For the Emboo River team, sustainability is not a fantasy, but it is an essential and fundamental element that is reflected in all our actions... including in our meals.

Our Chefs Julius and Emmy will be creating Farm to Fork meals that include fresh ingredients from our own organic gardens.

Our dishes are ingredient driven, so the dishes depend on what herbs, vegetables and fruits are in season. As the seasons change, so does the menu.

Through our food we create a healthy and vibrant world by introducing you to clean, nutritious food, where we marry Maasai and international flavours, as well as tradition and innovation.

We invite you to be surprised & dive into this bold food experience.
